

# TIMOTHEE D. TCHOUAMOU

## Mid-Level Full Stack Developer (TypeScript / Next.js)

Silver Spring, MD, USA | [tim.tchouamou@gmail.com](mailto:tim.tchouamou@gmail.com) | +1 240 360 7191 | Portfolio: <https://portfolio-tim.vercel.app/>  
LinkedIn: [www.linkedin.com/in/timothée-djoukep-tchouamou-13a633bb/](https://www.linkedin.com/in/timothée-djoukep-tchouamou-13a633bb/) | GitHub: <https://github.com/timtchouamou>

### PROFESSIONAL SUMMARY

Full Stack Developer with strong TypeScript expertise and hands-on experience across frontend and backend systems, specializing in Next.js, React, and API-driven architectures. Proven ability to build responsive, high-performance web applications, collaborate in Agile remote teams, and take ownership of features from design through production. Background as a Linux System Administrator brings a strong foundation in server-side concepts, CI/CD pipelines, and production environments.

### CORE SKILLS

**Frontend:** TypeScript, JavaScript (ES6+), Next.js (App Router, Server Components, API Routes), React, Vue.js (working knowledge), HTML5, CSS3, TailwindCSS, Responsive UI, Accessibility (WCAG), SEO

**Backend & APIs:** Node.js, Express.js (REST APIs), Next.js API Routes, Firebase, Supabase, Authentication & authorization flows

**DevOps & Tooling:** Git, GitHub, GitLab, Docker, CI/CD pipelines, Linux (RHEL, CentOS), Vercel deployments

**Testing & Collaboration:** React Testing Library, Agile/Scrum workflows, Code reviews, documentation, Jira-style task tracking

### SOFT SKILLS

Strong ownership mindset, clear communicator, detail-oriented, and effective in Agile, remote team environments.

### PROFESSIONAL EXPERIENCE

#### Skinstric AI — Frontend Engineer (Full-Stack Responsibilities)

Remote | May 2025 – Present

- Built and maintained **TypeScript-based web application** using Next.js, including **frontend UI and backend API routes**
- Architected a real-time AI analysis platform integrating **OpenAI Vision APIs**, handling image processing and server-side logic
- Designed reusable, scalable component systems to support rapid feature iteration and A/B testing
- Optimized server/client rendering using Next.js Server Components, reducing processing time to under 2 seconds
- Collaborated cross-functionally with designers and product stakeholders in an Agile environment
- Delivered production features end-to-end, from planning through deployment

#### Frontend Simplified — Frontend Developer & Peer Mentor

Remote | November 2024 – May 2025

- Developed and maintained TypeScript-based frontend applications using React and modern tooling
- Conducted code reviews and mentored developers on **clean architecture, maintainability, and performance**
- Led performance optimization initiatives resulting in 50% average load-time reduction
- Collaborated in Agile workflows with sprint planning and iterative delivery
- Taught CI/CD fundamentals and deployment strategies to junior developers

#### ABC Corporate Business Solution — Linux System Administrator

November 2020 – February 2024

- Managed and automated Linux-based server environments supporting production applications
- Deployed and maintained application servers (Apache, Tomcat) and system services
- Implemented CI/CD and configuration automation using Ansible and Puppet
- Ensured high availability, monitoring, and system reliability

### PROJECTS

#### Frontend Accelerator Platform

<https://summarist-tim.vercel.app/>  <https://github.com/timtchouamou/summarist-tim>

- Built a full-stack web application with authentication, subscriptions, and API-driven data flows
- Implemented backend logic using Firebase and REST APIs
- Developed responsive, accessible UI using React, TailwindCSS, and TypeScript

#### Netflix Clone

<https://netflix-clone-ochre.vercel.app/>  <https://github.com/timtchouamou/Netflix-clone.git>

- Developed a production-style frontend consuming external APIs
- Focused on component reuse, performance optimization, and clean UI patterns

### EDUCATION

FES Institute -- Frontend Development Certificate

April 2020 – October 2020

Bootcamp --Linux System Administration Certificate

May 2024 – November 2024

University of Yaoundé, Cameroon — B.S. Mathematics & Computer Science

October 2007 – February 2013

### ADDITIONAL

Authorized to work in the United States (E-Verify eligible) / Strong written and verbal communication
