TIMOTHEE D. TCHOUAMOU

Frontend / Full-Stack Developer (Next.js, React, TypeScript)

Silver Spring, MD, USA | tim.tchouamou@gmail.com | +1 240 360 7191 | Portfolio: https://porfolio-pro-tim-xi.vercel.app/
LinkedIn: www.linkedin.com/in/timothee-djoukep-tchouamou-13a633bb/ | GitHub: https://github.com/timtchouamou

PROFESSIONAL SUMMARY

Frontend / Full-Stack Developer with **3+ years of experience** specializing in React, Next.js, and TypeScript, building scalable, high-performance applications. Delivered AI-powered platforms and SaaS solutions that improved feature delivery by 30%+, reduced latency by up to 40%, and achieved sub-2s load times.

Skilled in API integration, cloud deployment (AWS/Azure), and modern UI systems, with backend experience in Node.js and Python. Known for driving efficiency, reliability (99.9% uptime), and user-focused solutions in Agile, cross-functional teams.

CORE SKILLS

Frontend:
React, TypeScript, JavaScript (ES6+), Vite, Chakra UI, Tailwind CSS, Redux, Zustand, Responsive Design Principles, GSAP, Lottie, Web Performance Optimization, API Integration, React Testing Library, Figma

Backend:
Node.js, REST APIs, Firebase, Supabase, Apache Tomcat

Cloud & Deployment:
Vercel, Netlify, CI/CD Pipelines, Cloud Deployment Practices

Security & Systems:
Server Hardening, Patch Management, Shell Scripting, Cron Jobs, Automation

Databases & Storage:
Relational Database Concepts, Supabase (PostgreSQL), Firebase (NoSQL)

DevOps & Infrastructure:
GitHub, CI/CD, Ansible, VCS Volume Manager, Linux Administration (RHEL, CentOS)

Tools & Collaboration:
VS Code, Jira, EpiServer, Agile/Scrum Methodologies

SOFT SKILLS

Strong ownership mindset, clear communicator, detail-oriented, effective in Agile, remote team environments, Customer-facing communication, cross-functional collaboration .

PROFESSIONAL EXPERIENCE

Skinstric AI — Frontend Developer (Full-Stack Responsibilities) **Remote | May 2025 – Present**

- Built and deployed scalable web applications using React, Next.js, TypeScript, and Chakra UI, improving feature delivery speed by 30%+ and enhancing user engagement through responsive, accessible design
- Integrated REST & GraphQL APIs, reducing data-fetch latency by 25–40% and improving frontend-backend communication efficiency
- Developed a real-time AI platform using OpenAI APIs, automating image analysis and reducing manual processing effort by 40%+
- Optimized application performance using Next.js Server Components, decreasing load times to < 2 seconds and improving user retention and experience
- Deployed and managed applications on AWS and Azure, increasing system availability to 99.9% uptime and enabling scalable, cloud-native architecture
- Leveraged AWS services (EC2, S3, Lambda) to support microservices, improving system scalability and reducing infrastructure bottlenecks by 30%
- Engineered backend services using Node.js, Python, and Ruby on Rails, supporting high-performance APIs and improving data processing efficiency by 35%
- Implemented OAuth 2.0 authentication, strengthening application security and reducing unauthorized access risks by 50%
- Designed and optimized PostgreSQL/MySQL databases, improving query performance and data reliability by 25%+
- Built interactive dashboards and workflow-driven applications, reducing manual operational tasks by 30% and improving decision-making speed
- Integrated frontend systems with backend services, handling real-time data, dynamic JSON, and error states, improving application stability and user satisfaction
- Leveraged AI coding agents and automation workflows, increasing development productivity by 35% and accelerating delivery timelines
- Delivered production-ready applications using CI/CD pipelines, Git, Vercel, and Netlify, reducing deployment time by 40% and improving release reliability
- Collaborated in SaaS and cross-functional teams, aligning technical solutions with business goals and contributing to faster product iteration cycles.

Frontend Simplified — Junior Frontend Developer **Remote | November 2023– May 2025**

- Developed responsive React.js frontend components for NFT display platform utilizing Firebase Authentication and Firestore database, serving 1000+ digital assets;
- Integrated RESTful APIs using Axios to retrieve NFT metadata and digital assets, ensuring 95% request success rate and load times under 2 seconds;
- Implemented user authentication system using Firebase Authentication, resulting in 500+ registered users and secure data management;
- Built and maintained 15+ reusable React components with JavaScript ES6+, Redux for state management, and Material-UI for cohesive styling;
- Deployed Firebase Cloud Functions to handle backend operations, reducing server response time by 30% for NFT metadata retrieval;
- Created mobile-responsive layouts using CSS Flexbox and Grid, ensuring consistent display across desktop, tablet, and mobile devices with 98% compatibility.
- Collaborated with a 3-person development team using Git version control and Agile methodologies, completing 40+ JIRA tickets in 3-month development cycle.

  Goal: Build strong React fundamentals, debugging skills, and remote Agile teamwork experience.

ABC Corporate Business Solution — Linux System Administrator **November 2020 – February 2023**

- Ensured uptime and reliability by managing Linux servers to maintain 99.9% server uptime.
- Improved efficiency via automation and monitoring tools to reduce manual tasks by ~50%.;
- Strengthened security and performance through systematic updates and troubleshooting, decreasing system errors by 30%.
- Created documentation for processes to enhance team operations, improving onboarding speed for new team members by 25%.

PROJECTS

CHECK IN MY Portfolio: https://porfolio-pro-tim-xi.vercel.app/

EDUCATION

FES Institute – San Francisco, CA
Certification in Frontend Development
April 2023-November 2023

Bootcamp --Linux System Administration Certificate
May 2020– November 2020

University of Yaoundé, Cameroon
Bachelor's degree in Computer Science and Mathematics
October 2007 – February 2013

University of Douala, Cameroon – Project Management
OCT 2013 – DEC 2015,

ADDITIONAL

U.S Citizen

Strong written and verbal communication
